VOLUME 10 PAGINATION

Issue	Pages	Issue	Pages
January	1-53	July	777-845
February	113-205	August	881-951
March	265-339	September	993-1087
April	393-493	October	1145-1193
May	553-635	November	1241-1297
June	681-737	December	1337-1393

SMALL ANIMAL SUBJECT INDEX

A

Acromegaly
 canine, 480-481
 feline, 1353-1355
 Addison's disease
 canine, 1370
 feline, 1358-1359
 Adrenal cortex hyperfunction, ketoconazole
 therapy, canine, 1379-1386
 Allografting technique, cortical bone, 906-913,
 1167-1176
 Alopecia, growth hormone-responsive,
 pathophysiology, canine, 1346-1349
 Anemia
 aplastic, canine, 911
 autoimmune hemolytic, canine, 418-427
 Antiarrhythmic drugs, posttraumatic therapy,
 canine/feline, 335-339
 Antimicrobial drugs, cryptosporidiosis, 280-281
 Antineoplastic agents, low-dose exposure
 potential hazards, 293-300
 categorization by carcinogenicity,
 mutagenicity, teratogenicity, 294-295
 in vivo evidence, 296-297
 safety precautions, 606-624
 equipment/protective devices, 616-618
 hospital policy, 619-622
 oral administration, 619
 parenteral administration, 618-619
 regulation/compliance, 622
 Argasid ticks, 699-708
 identification keys, 702-705
 Arrhythmia, cardiac, posttraumatic, pathogenesis
 and treatment, 332-339
 summary of antiarrhythmic drugs, 337
 Aspergillosis, disseminated, canine, 465-471
 clinical findings, 467
 immunology, 469-470
 Autoimmune disease, hemolytic anemia, canine,
 418-427
 Avian zoonoses
 bacterial and parasitic diseases, 484-492
 viral fungal diseases, 688-695

B

Bacterial infection, avian, 484-492
 Biliary tract, extrahepatic, obstruction, associated
 liver fluke infestation, feline, 628-632
 Bilirubin levels, associated disorders, 712-722

Blood disorders
 pancytopenia, canine, 9-16
 thrombocytopenia, infectious, canine, 1177-1190
 Blood pressure, canine systemic hypertension,
 1152-1158
 Bone
 fractures/luxations, repair, closed reduction/
 blind pinning canine/feline, 784-798
 graft, cortical, 906-913, 1167-1176
 marrow dysfunction, causes of pancytopenia,
 canine, 9-16
Brucella canis infection, associated infertility,
 diagnosis, male dog, 447-448

C

Calcinosis, tumoral, canine, 1162-1164
 Calico haircoat, male cat, genotypic analysis,
 18-22
Campylobacter spp. infection, avian, 487-488
 Cardiac anomalies/Eisenmenger's syndrome,
 canine, 932-937, 949
 Cardiovascular system
 pulmonary arterial disease, associated
 heartworm infestation, canine, 594-601
 systemic hypertension, canine, 1152-1158
 Cauda equina syndrome, canine, 835-844
 case study, 835-844
 clinical signs, 836
 radiographic findings, 836-838
 study results, 840-841
 treatment, 837-840
 Central nervous system, reticulosis, canine,
 304-310
Chlamydia psittaci infection, avian, 484-485
 Chlorpromazine overdose, feline, 202-204
 Cholectasis, associated altered bilirubin levels,
 714-715
 Chromosomes, analysis of 38, XX/39, XXY
 genotype, feline, 18-22
 karyotyping, 18-19, 20
 screening cytogenetic examinations, 19-20
 Chylothorax, canine/feline, 130-134
 Clinical pharmacokinetics (see Pharmacokinetics)
 Congenital disorders
 cardiac anomalies, canine, 932-937, 949
 cauda equina syndrome, 835-844
 ectopic ureter, diagnosis and surgical correction,
 canine, 146-157

SMALL ANIMAL SUBJECT INDEX—CONTINUED

entropion, canine, 431-438
 ichthyosis, canine, 40-45
 Contrast media, myelography, canine, 32-36
 Cryptococcosis
 avian, 691
 feline, 1049-1055
 Cryptosporidiosis
 avian, 488-489
 companion animals, reptiles, food animals,
 horses, 275-285
 diagnosis, 279-281
 histopathology, 279
 Cushing's syndrome/disease
 canine
 effect of nonsteroidal factors on testing
 procedures, 1370
 ketoconazole therapy, 1379-1386
 feline, 1356-1358
 Cystoscopy, female dogs, 890-895
 study results, 892-894
 technique, 890-894
 Cytauxzoonosis, feline, 731-736
 diagnosis, 732-734
 treatment/prevention, 734
 Cytotoxic agents, low-dose exposure
 potential hazards, 293-300
 categorization by carcinogenicity,

 mutagenicity, teratogenicity, 294-295
 in vivo evidence, 296-297
 safety precautions, 616-624
 equipment/protective devices, 616-618
 hospital policy, 619-622
 oral administration, 619
 parenteral administration, 618-619
 regulation/compliance, 622

D

Dental care, tooth extraction, canine/feline,
 175-186
 complications, 185-186
 indications, 175-177
 techniques, 177-185
 Dermatophytes, avian, 691, 694
 Dermatitis
 growth hormone-responsive, canine, 479-480
 ichthyosiform, canine, 40-45
 Dietary management
 diabetes mellitus, 1387-1392
 hepatic encephalopathy, canine, 1258-1262
Dirofilaria immitis (see Heartworm disease)
 Dislocations, repair (see Fractures, repair)
 Disseminated aspergillosis (see Aspergillosis)
 Drug dose regimens, clinical pharmacokinetics
 chlorpromazine overdose, feline, 202-204
 concepts, 24-30

"This new class of compounds from Haver
 research is the first of its kind developed
 specifically for veterinary use."

Antibacterial Therapy Has Reached The Turning Point.

SMALL ANIMAL SUBJECT INDEX—CONTINUED

- absorption, 28-29
- distribution, 26-27
- elimination, 27-28
- modeling techniques, 314-328
 - compartmental systems, 314-317
 - extravascular drug administration, 319-322
 - multiple drug administration, 322-324
 - physiologic models, 318-319
 - population pharmacokinetics, 318-319
 - serum binding, 318
- Dwarfism, pituitary, canine, 478-479

E

- Ectoparasites
 - argasid ticks, 699-708
 - ixodid ticks, 564-580
- Ectopia, ureteral, canine, diagnosis and surgical correction, 146-157
- Effusions
 - classification, 125-136
 - clinical presentation, 122-123
 - clinopathologic evaluation, 124-125
 - pericardial, associated endocardiosis/atrial rupture, canine, 800-805
 - pleural, canine/feline, 121-136
 - radiographic findings, 123-124
 - thoracocentesis, 124
- Ehrlichiosis, canine, 11
- Eisenmenger's syndrome, associated cardiac anomalies, canine, 932-937, 949
- Elements, disease implications (see Metabolism)
- Encephalitis, viral, avian, 690
- Encephalopathy, hepatic, dietary management, canine, 1258-1262
- Endocardiosis, chronic, associated effusion/atrial rupture, canine, 800-805
- Endocrine disorders
 - diabetes mellitus, dietary management, 1387-1392
 - feline, 1353-1362
 - acromegaly, 1353-1355
 - hyperadrenocorticism, 1356-1358
 - hypoadrenocorticism, 1358-1359
 - hypothyroidism, 1355-1356
 - growth-hormone-responsive alopecia, 1346-1349
 - hyperadrenocorticism, ketoconazole therapy, canine, 1379-1386
 - thyroid function tests, canine, 1365-1377
- Entropion, canine, 431-438
 - cicatricial, 432
 - congenital, 432
 - corrective surgery, 432-436
 - spastic, 431-432
- Extraction, tooth, canine/feline, 175-186
- Eye, entropion, canine, 431-438

F

- Fluid accumulation pleural cavity, canine/feline, 121-136
- Fractures, repair, closed reduction/blind pinning, canine/feline, 784-798
 - advantages/disadvantages, 785
 - indications, 784
 - technique, specific fracture types, 785-794

Fungus infection

- Aspergillus terreus*, canine, 465-471
- cryptococcosis, feline, 1049-1055
- Cryptococcus neoformans*, avian, 691
- Histoplasma capsulatum*, avian, 690-691
- FUS (see Urinary tract)

G

- Gastroduodenal junction, Y-U pyloroplasty technique, canine, 139-144
- Gastrointestinal tract
 - stomach, normal function/motility, canine, 1282-1293
 - stomach/duodenum, ulcer disease, small animal, 1265-1279
- Genetics, 38,XX/39,XXY genotype, feline, 18-22
- Giardiasis, avian, 488
- Granulation tissue, formation, function, and role in managing open wounds, 163-172
- Growth hormone
 - related disorders, canine, 477-481
 - responsive alopecia, pathophysiology, canine, 1346-1349
 - secreting pituitary tumor, feline, 1353-1355

H

- Heart
 - arrhythmias, posttraumatic, pathogenesis and treatment, 332-339
 - summary of antiarrhythmic drugs, 337
 - congenital anomalies, associated Eisenmenger's syndrome, canine, 932-937, 949
 - endocardiosis and complications, canine, 800-805
- Heartworm disease
 - canine, associated pulmonary arterial disease, 594-601
 - feline, 585-589
 - treatment, 588
- Hemolytic anemia, autoimmune, canine, 418-427
- Hepatitis, chronic active, canine, 1247-1254
 - case presentations, 1249-1254
- Heterobilharziasis, canine, 606-612
- Histoplasmosis, avian, 690-691
- Hormone, growth
 - related disorders, canine, 477-481
 - responsive alopecia, pathophysiology, canine, 1346-1349
 - secreting pituitary tumor, feline, 1353-1355
- Hormone, thyroid, diagnostic testing, canine, 1365-1377
- Human-pet relationships, canine/feline, 193-200
- Hyperadrenocorticism
 - canine
 - effect of nonsteroidal factors on testing procedures, 1370
 - ketoconazole therapy, 1379-1386
 - feline, 1356-1358
- Hyperbilirubinemia, 714-722
- Hypertension, systemic, associated disease, canine, 1152-1158
- Hypoadrenocorticism
 - canine, 1370
 - feline, 1358-1359

SMALL ANIMAL SUBJECT INDEX—CONTINUED

Hypopituitarism

- adult-onset, canine, 479-480
- juvenile, canine, 478-479

Hypothyroidism, feline, 1355-1356

I

Ichthyosis, congenital, canine, 40-45

Icterus, associated altered bilirubin levels, 719-722

Infection/infestation

- aspergillosis, disseminated canine, 465-471
- associated thrombocytopenia, canine, 1177-1190

bacterial, avian, 484-492

Campylobacter, avian, 487

cryptococcosis

avian, 691

feline, 1049-1055

Cryptosporidium, 275-285

avian, 488-489

Cytauxzoon felis, 731-736

dermatophytes, avian, 691, 694

Dirofilaria immitis

associated pulmonary arterial disease,

canine, 594-601

feline, 585-589

fungal, avian, 691

giardiasis, avian, 488

Heterobilharzia, canine, 606-612

histoplasmosis, avian, 690-691

influenza A, avian, 688-689

liver fluke, associated biliary tract obstruction, feline, 628-632

mycobacterial

avian, 485-487

feline, 1044-1048

Newcastle disease, 689-690

pancreatitis, acute, canine, 403-416

parasitic, avian, 484-489

Spirocerca lupi, canine, 807-822

viral, avian, 688-690

Yersinia, avian, 487

Infertility, clinical evaluation, male dog, 443-460

Brucella canis testing, 447-448

endocrinologic evaluation, 453-456

history/physical examination, 443-444

semen collection/testing, 444-447

semen evaluation, 448-452

testicular biopsy, 452-453

Inflammation, liver, chronic, canine, 1247-1254

Influenza A, avian, 688-689

Iohexol, myelography contrast medium, 32-36

Iopamidol, myelography contrast medium, 32-36

Ixodid ticks, 564-580

identification keys, 570-578

"Its broad spectrum makes it suitable for therapy against a multitude of infections."

Antibacterial Therapy Has Reached The Turning Point.

SMALL ANIMAL SUBJECT INDEX—CONTINUED

K Karyotype, 38,XX/39,XXY, feline, 18-22
Kernicterus, associated altered bilirubin levels, 716-718

Ketoconazole

effect on steroidogenesis, 1379-1386
therapy of hyperadrenocorticism, canine, 1379-1386

Kidney disease, idiopathic polycystic, feline, 1030-1040

case study/special studies, 1032-1040
clinical presentations, 1031
treatment/prognosis, 1031-1032

Kiricephalus spp. infestation, reptile, 46-51

Klinefelterlike syndrome, feline, 18-22

L Lead poisoning, feline, 724, 728

Liver

encephalopathy syndrome, dietary management, canine, 1258-1262
evaluation of function, 718-719
inflammation, chronic active, canine, 1247-1254

Luxations, repair, closed reduction/blind pinning, canine/feline, 784-798
advantages/disadvantages, 785
indications, 784

technique, specific luxation types, 794-798

Lymphangiectasia, thoracic, canine/feline, 130

M Mathematical models, drug dose regimens (see Pharmacokinetics)

Mesh tissue reconstruction technique, 897-904

Metabolic disorders

altered bilirubin levels, 712-722
canine bilirubinuria, 715
cholestasis, 714-715
icterus, 719-722
kernicterus, 716-718
liver function evaluation, 718-719
neonatal jaundice, 718
urobilinogen, 715-716
diabetes mellitus, dietary management, 1387-1392

Metabolism, cellular, disorders of, associated oxygen-derived free radicals, 939-946
disorders, 943-944

natural defense, 943

oxygen radical generation, 940-943

Motility, gastric, canine, 1282-1293

Mycobacterial infection

avian, 485-487
feline, atypical, 1044-1048
case study, 1045-1047

Myelofibrosis, canine, 11-12

Myelography, nonionic contrast media, 32-36

Myelophthisis, cause of pancytopenia, canine, 13

N Neoplasm, pituitary, growth hormone-secreting, feline, 1353-1355

Nervous system, central

cauda equina syndrome, canine, 835-844
reticulosis, canine, 304-310

Newcastle disease, avian, 689-690

Nutrition, management of
diabetes mellitus, 1387-1392
hepatic encephalopathy, canine, 1258-1262

O Occupational hazards, exposure to antineoplastic agents in low levels, 293-300
safety precautions, 616-624

Ophthalmology, entropion, canine, 431-438

Overdose, chlorpromazine, feline, 202-204

Oxygen-derived radicals, pathophysiology, 939-946

associated disorders, 943-944

P Pancreatitis, acute, canine, 403-416
causes, 404-405

diagnosis, 405-407

pathogenesis, 405

physiology, 403-404

prognosis/aftercare, 412

treatment, 407-412

Pancytopenia, causes, canine, 9-16

aplastic anemia, 9-11

case studies, 13-15

cellular marrow, 12-13

myelofibrosis, 11-12

Parasites

argasid ticks, 699-708

Cryptosporidium, 275-285, 488-489

avian zoonosis, 488-489

companion animals, reptiles, food animals, horses, 275-285

diagnosis, 279-281

histopathology, 279

Cytauxzoon felis, 731-736

Dirofilaria immitis (heartworm disease)

canine, associated pulmonary arterial disease, 594-601

feline, 585-589

Giardia, avian, 488

Heterobilharzia americana, canine, 606-612

ixodid ticks, 564-580

pentastomes, reptilian, 46-51

Platynosomum concinnum, associated biliary tract obstruction, feline, 628-632

Spirocerca lupi, canine, 807-822

Pentastomiasis, reptile, 46-51

diagnosis and treatment, 50-51

pathology, 47-50

Periodontal disease management, tooth

extraction, canine/feline, 175-186

Pharmacokinetics, clinical

concepts, 24-30

absorption, 28-29

distribution, 26-27

elimination, 27-28

modeling techniques, 314-328

compartmental systems, 314-317

extravascular drug administration, 319-322

multiple drug administration, 322-324

physiologic models, 317-318

population pharmacokinetics, 318-319

serum protein binding, 318

toxicant absorption and distribution, 1058-1064

SMALL ANIMAL SUBJECT INDEX—CONTINUED

Pituitary neoplasm, growth hormone-secreting, feline, 1353-1355

Platelets, associated thrombocytopenia, canine, 1177-1190

Platynosomum concinnum (see Biliary tract)

Pleural effusions, canine/feline, 121-136

classification, 125-135

clinical presentation, 122-123

clinicopathologic evaluation, 124-125

radiographic findings, 123-124

thoracocentesis, 124

Pleurodesis, therapy of selected pleural diseases, 826-832

agents, sclerosing/chemotherapeutic, 828-829

indications, 827-828

mechanism of action, 826

Poisoning, lead, feline, 724, 728

Polycystic kidney disease, idiopathic, feline, 1030-1040

Porocephalus spp. infestation, reptile, 46-51

Pregnancy complications, uterine torsion, feline, 1078-1082

Prolapse, uterus, feline, 1294-1296

Pyloroplasty, Y-U antral flap, canine, 139-144

R

Rabies, avian, 690

Radiography, nonionic contrast media, canine, 32-36

Reptiles, parasitic infestation, pentastomes, 46-51

Respiratory tract

aspergillosis, disseminated, canine, 465-471

chronic disease, feline, 1003-1012

pentastomiasis, reptilian, 46-51

Reticulosis, central nervous system, canine, 304-310

Rhinitis

associated with aspergillosis, canine, 465-471
feline, differential diagnosis and management, 1003-1112

S

Salmonellosis, avian, 484

Schistosomiasis, canine, 606-612

Sclerosis, pleural (see Pleurodesis)

Sedative, chlorpromazine overdose, feline, 202-204

Semen analysis, canine (see Infertility)

Sinusitis

associated with aspergillosis, canine, 465-471
feline, differential diagnosis and management, 1003-1112

Skin

disease, ichthyosis, congenital, canine, 40-45
graft

full-thickness techniques, 1068-1076

healing process, 915-925

Somatotropin (see Growth hormone)

Spirocercosis, canine, 807-822

case study, 810-817

clinical signs/diagnosis, 809-810

life cycle, *Spirocerca*, 807-808

radiographic assessment, comparative study, 820

Steroidogenesis, effect of ketoconazole, 1379-1386

Stomach

normal function/motility, canine, 1282-1293

ulcer disease, small animal, 1265-1279

Surgical techniques

cortical bone grafting, 906-913, 1167-1176

cystoscopy, female dogs, 890-895

granulation tissue bed, management of open wounds, 163-172

fractures/luxations, closed reduction/blind

pinning, canine/feline, 784-798

mesh (Marlex®) tissue reconstruction, 897-904

pleurodesis, as treatment, selected pleural diseases, 826-832

pyloroplasty, Y-U antral flap advancement, canine, 139-144

skin grafting

full-thickness type, 1068-1076

healing process, 915-923

thoracotomy, rib pivot, 927-930

ureterovesicular anastomosis, correction of ectopic ureter, canine, 146-157

Symphysis, pleural (see Pleurodesis)

T

T-C cat (see under Calico or Tortoiseshell)

Testis, biopsy, infertility testing, canine, 452-453

Thoracocentesis, treatment of pleural effusions, canine/feline, 124-125

Thoracotomy, rib pivot technique, 927-930

Thrombocytopenia, infectious, canine, 1177-1190

diagnosis, 1178-1183

predisposing agents, 1182-1183

treatment, 1183-1186

Thyroid function tests, nonthyroidal factors, canine, 1365-1377

Ticks, 564-580, 699-708

Tissue, associated surgery

granulation tissue bed, management of open wounds, 163-172

reconstruction technique, polyethylene (Marlex®) mesh, 897-904

Tooth extraction, canine/feline, 175-186

complications, 185-186

indications, 175-177

techniques, 177-186

Torsion, uterine, feline, 1078-1082

Tortoiseshell haircoat, male cat genotypic analysis, 18-22

Toxicants, antidotal therapy, pharmacokinetics, 1058-1064

Toxicity

antineoplastic agents in low exposure levels, 293-300

safety precautions, 616-624

chlorpromazine overdose, feline, 202-204

lead, feline, 724, 728

Trauma-induced cardiac arrhythmias,

pathogenesis and treatment, 332-339

Tumoral calcinosis, canine, 1162-1164

U

Ulcer disease, upper gastrointestinal tract, small animal, 1265-1279

clinical findings, 1270-1271

SMALL ANIMAL SUBJECT INDEX—CONTINUED

diagnosis, 1271
 predisposing factors, 1268–1270
 treatment, 1271–1278
 Ureter, ectopic, canine, diagnosis and surgical
 correction, 146–157
 Urinary tract (*see also* specific structures and
 diseases)
 cystoscopy, female dogs, 890–895
 disease, feline, 1015–1026
 incontinence, associated ectopic ureter, canine,
 146–157
 Urobilinogen, associated altered bilirubin levels,
 715–716
 Uterus
 prolapse, feline, 1294–1296
 torsion, feline, 1078–1082

V

Veterinary practice, human-pet relationships,
 193–200
 Viral infections
 avian, 688–690
 chronic upper respiratory disease, feline,
 1003–1012

W

Wound healing, management using granulation
 tissue bed, 163–172

Y

Y-U pyloroplasty technique, canine, 139–144
Yersinia spp. infection, avian, 487

EQUINE SUBJECT INDEX

A**Abdomen**

- acute, surgical exploratory technique, 955-966
- organ identification and examination, 956-966
- preliminary considerations, 955-958
- colic, butorphanol tartrate as treatment protocol, 849-854
- distention, colon evacuation technique, 96-102
- Analgesics, butorphanol tartrate, 849-854
- clinical investigations, 852-853
- dose/overdose, 853-854
- mechanism of action, 849-850
- pharmacokinetics, 851-852
- toxicology, 852
- Antibiotics, associated nephrotoxicity, 105-106

B

- Bone, infection, juvenile equine, 856-861
- Burns, thermal, management, 88-95
- Butorphanol tartrate, pharmacology and clinical indications, 849-854
- clinical investigations, 852-853
- dose/overdose, 853-854
- mechanism of action, 849-850
- pharmacokinetics, 851-852
- toxicology, 852

C

- Cardiac disease, nutritional management, 360
- Central nervous system, neurologic evaluation following cranial trauma/disease, 740-754
- Colic, butorphanol tartrate as treatment protocol, 849-854
- Colitis, pathophysiology, 1309-1316
- Colon obstruction, evacuation technique, 96-102
- Computed tomography, diagnosis and treatment of pituitary tumor, 1103-1106, 1196-1200
- Cranial nerve trauma/disease, neurologic evaluation, 740-754
- Cytology, mammary fluid, 1090-1099
- evaluation of results, 1091-1099
- materials and methods, 1090-1091

D

- Dental disorders, associated dysphagia, 1302-1303
- Diagnostic techniques
- computed tomography, pituitary neoplasms, 1103-1106
- fistulography, 639-645

Diarrhea

- digestive physiology, 1309-1316
- nutritional management, 356-357
- Digestion, large intestinal physiology, 1204-1210, 1309-1316
- Donor management, embryo transfer, 344
- Dysphagia, differential diagnosis, 1301-1307, 1405-1410
- deglutition and peristalsis, 1405-1410
- prehension and mastication, 1302-1306

E

- Embryo transfer, 343-355
- donor management, 344
- embryo recovery, identification, size, morphology, 346-349
- recipient selection/management, 344-345
- synchronization, estrus/ovulation, 345-346
- Esophageal disorders, associated dysphagia, 1301-1307, 1406-1407
- Evacuation technique, large colon obstruction, 96-102
- Exploratory surgery, intestinal tract/abdominal disease, 955-966

F

- Fertility management, embryo transfer, 343-355
- Fistulography, 639-645
- radiographic contrast agents, 639-640
- technique, 640-645

G

- Gait assessment, as diagnostic tool of lameness, 211-212
- Geriatric nutrition, 360-361
- Grafts, burn trauma, 90-95

H

- Heart disease, nutritional management, 360
- Heavy metals, associated nephrotoxicity, 108-109
- Hemospermia, diagnosis and treatment, 1396-1403
- methods and materials, 1396
- results of clinical study, 1396-1400
- Hoof tester, as diagnostic tool of lameness, 214
- Hyoid apparatus, neurologic evaluation of trauma/disease, 740-754
- Hyperlipemia, 218-221

EQUINE SUBJECT INDEX—CONTINUED

I

- Induction of parturition, 508-514
 - agents, 510-514
- Infection, osteomyelitis, costovertebral, juvenile equine, 856-861
- Infertility, caused by hemospermia, 1396-1400
 - diagnosis and treatment, 1396-1400
 - results of clinical study, 1396-1400
- Inflammation, colon, pathophysiology, 1313-1314
- Injury (*see* Trauma)
- Intestine
 - large
 - acute disease, surgical exploratory technique, 955-966
 - organ identification and examination, 956-966
 - preliminary considerations, 955-958
 - colitis, pathophysiology, 1309-1316
 - digestive physiology, 1204-1210, 1309-1316
 - obstruction, evacuation technique, 96-102
 - small
 - acute disease, surgical exploratory technique, 955-966
 - nutritional management, malabsorption/maldigestion, 357-359

J

- Joint, synovitis, villonodular, 649-654
 - clinical findings, 649-650
 - pathology, 651-652
 - radiographic findings, 650-651
 - treatment, 652-653

K

- Kidney
 - disease, nutritional management, 360
 - dysfunction, causative toxins, 104-111

L

- Lameness (*also see* Joint)
 - clinical diagnosis, 209-215
 - classification, 212-213
 - provocative testing, 213-215
 - prognostic factors, 499-504
 - environmentally related, 501-502
 - patient related, 500-501
 - sport related, 501-502
 - trainer related, 502-503
- Lipids, increased blood levels, 218-221
- Liver disease, nutritional management, 359-360

M

- Malabsorption/maldigestion, nutritional management, 357-359
- Mammary gland fluids, cytologic features, 1090-1099
 - evaluation of results, 1091-1099
 - materials and methods, 1090-1091
- Metabolic disorders, hyperlipemia, 218-221

N

- Neoplasms, pituitary, computed tomography diagnosis and treatment, 1103-1106, 1196-1200
- Nephropathy, toxic, 104-111
- Nervous system, central, disorders following cranial trauma/disease, 740-754
- Nutrition, management of clinical problems, 356-363
 - cardiac disease, 360
 - diarrhea, 356-357

- geriatrics, 360-361
- liver disease, 359-360
- malabsorption/maldigestion, small intestine, 357-358

O

- Obstruction, intestinal, evacuation technique, 96-102
- Osteomyelitis, costovertebral, juvenile equine, 856-861

P

- Parturition, artificially controlled versus spontaneous, 506-516
- Petrous temporal bone, neurologic evaluation of trauma/disease, 740-754
- Pharyngeal disorders, associated dysphagia, 1301-1307, 1405-1406
- Pigments, associated nephrotoxicity, 107-108
- Pituitary tumors, computed tomography diagnosis and treatment, 1103-1106, 1196-1200
- Plants, associated nephrotoxicity, 108
- Pregnancy embryo transfer, 343-355
 - parturition, artificial versus spontaneous, 506-516

R

- Radiography, fistulae, 639-645
 - contrast agents, 639-640
 - technique, 640-645
- Renal failure, acute, toxin-induced, treatment, 109-110

S

- Sinus tract radiography, 639-645
 - contrast agents, 639-640
 - technique, 640-645
- Surgical exploration, intestinal tract/abdominal disease, 955-966
- Synovitis, villonodular, 649-654
 - clinical findings, 649-650
 - pathology, 651-652
 - radiographic findings, 650-651
 - treatment, 652-653

T

- Theriotogenology, embryo transfer, 343-355
- Tomography, computed, diagnosis of pituitary tumors, 1103-1106, 1196-1200
- Toxic substances, nephrotoxins, 104-111
- Training regimen, association with lameness, 501-504
- Transplantation, embryo, 343-355
- Trauma
 - cranial, subsequent central nervous system disorders, 740-754
 - limb, prognostic factors, 499-504
 - thermal burns, management, 88-95
- Tumor, pituitary, diagnosis by computed tomography, 1103-1106, 1196-1200
- Tympanic bulla, neurologic evaluation of trauma/disease, 740-754

V

- Villonodular synovitis, 649-654
 - clinical findings, 649-650
 - pathology, 651-652
 - radiographic findings, 650-651
 - treatment, 652-653
- Vitamin D, associated nephrotoxicity, 106

W

- Wounds, thermal, management, 88-95

Johne's disease, associated amyloidosis, ovine, 381-385

L

Leptospirosis, swine, 671-672

serologic diagnosis, 984

M

Meningitis, bacterial, therapy, 225-231

antibiotics, 227-229

pharmacokinetics of antimicrobial drugs, 226-227

steroids, 229

supportive therapy, 229-230

Metastases, lung, from uterine neoplasm, bovine, 864-868

Monitoring system

dairy herd management

computer spreadsheet, 75-80

implementation/goal setting, 373-378

swine herd management

environmental control, 1125-1134

reproductive performance analysis,

problem-oriented population medicine, 871-878

Mycoplasma infection

enzootic pneumonia, calves, 248-260

serologic diagnosis, swine reproductive disease, 984-985

N

Neoplasms, uterine, bovine, 864-868

Nephrectomy, unilateral, management of

Hemophilus somnus—associated nephritis,

bovine, 520-522, 527

Nerve damage, sciatic, postinjection,

swine weanling, 1329-1332

Nervous system, autonomic, vagus indigestion,

cattle, 387-391

clinical diagnosis, 388

study materials/methods, 387-388

treatment, 388-391

Nutrition

beef replacement program, 544-546

optimization of reproduction, 659-664

effect on calf growth, 659-662

effect on cow condition, 662-663

environmental effects, 663

problems, young stock, dairy, 1119-1123

O

Oleander poisoning, 262-263

Omasal transport failure, cattle, 387-391

(also see Vagus indigestion)

Oophoritis, swine, 529-530

P

Paratuberculosis, mycobacterial, associated

amyloidosis, ovine, 381-385

Parturition attendants, effect on weaning survival,

swine herd, 241-246

Parvovirus infection, porcine, 669-670

serologic diagnosis, 982

PEV (see Enterovirus)

Pharmaceuticals, veterinary, extralabel use, 1215-1220

Plants, poisonous, oleander, 262-263

Pneumonia, enzootic, calves, 248-260

Population medicine, swine breeding herds, 871-878

PPV (see Parvovirus)

Preshipment programs, beef herd

order-buyer, 369-370

ranch, 368-369

salebarn, 370-371

Production guidelines, depopulation/

repopulation, swine herd, 1233-1239

Production medicine, correlation to self-image

psychology, dairy herd management,

1321-1327

FOOD ANIMAL SUBJECT INDEX—CONTINUED

Prolapse, uterine, dairy cattle, 1135-1142
 diagnosis/clinical signs, 1135-1136
 incidence, 1136-1137
 pathogenesis, 1137
 prevention, 1141-1142
 prognosis, 1141
 treatment, 1137-1141

Prostaglandins, synchronization of estrus, beef cattle, 57-60

Pseudorabies virus infection, swine, 670-671
 serologic diagnosis, 980-982

Pyelonephritis, bovine, 82-85
 chronic, *Hemophilus somnus*-associated, 520-522, 527

R

Replacement program, beef heifers, 543-551

Repopulation, guidelines, swine herds, 1233-1239

Reproduction

beef herd, replacement optimization, 543-551
 nutritional optimization, beef cow, 659-664
 population medicine, problem-oriented, swine breeding herds, 871-878
 serologic results, interpretation of, 979-985
 superovulation methods, ovine, 1415-1423
 weaning age, assessment and optimization, swine herd, 761-764

Reproductive system

infection, swine

infectious reproductive diseases

brucellosis, 672

male infertility, 673

porcine enterovirus, 671

porcine parvovirus, 669-670

swine leptospirosis, 671-672

reproductive pathogens, 672

urogenital

clinical signs/pathogenesis, 63-70

pathology/medical management, 529-538

uterus

neoplasm, bovine, 864-868

prolapse, dairy bovine, 1135-1142

vesicular gland inflammation, bulls, 1428-1448

Respiratory tract disease

acute pulmonary emphysema and edema, bovine, 766-774

enzootic pneumonia, calves,

clinical/morphologic features, 248-260

S

Sciatic nerve damage, postinjection, swine weanling, 1329-1332

Self-image psychology, correlation to production medicine, dairy herd management, 1321-1327

Standard deviation calculations, measurement of swine herd production, 525-527

Stress management procedures, beef herd, 971-976

Superovulation methods, ovine, 1415-1423

Synchro-Mate B®, estrus synchronization, beef cattle, 57-60

Swine herd health/production management
 environmental control program, 1125-1134
 farrowing attendant, role in weaning survival, 241-248

infectious reproductive diseases, 669-679

brucellosis, 672

male infertility, 673

porcine enterovirus, 671

porcine parvovirus, 669-670

swine leptospirosis, 671-672

reproductive pathogens, 672

population and production guidelines, depopulation/repopulation 1233-1239

population medicine, problem oriented, swine breeding herds, 871-878

production measurement using standard deviation calculation, 525-527

reproductive performance analysis, computerized, 871-878

sciatic nerve damage, postinjection, weanling, 1329-1332

serology, as diagnostic tool, reproductive diseases, 979-985

urogenital infections

clinical characteristics, 63-70

pathology and management, 529-538

weaning age, assessment and optimization, 761-764

Swine reproduction (see Reproduction)

T

Toxicity, oleander poisoning, 262-263

Trauma, sciatic nerve, postinjection, swine weanling, 1329-1332

U

Urogenital infection, swine, 63-70, 529-538

Urolithiasis, bovine, 82-85

Uterus

neoplasm, associated lung metastasis, bovine, 864-868

prolapse, dairy cattle, 1135-1142

V

Vaccination program, beef breeding herd, 1111-1117

cost-effectiveness, 1116-1117

protocols, 1113-1114

vaccine selection, 1112-1113

Vaginitis, swine, 532-533

Vagus indigestion, cattle, 387-391

clinical diagnosis, 388

study materials/methods, 387-388

treatment, 388-391

Vesiculitis, seminal, bulls, 1428-1448

Veterinary practice

beef cattle industry, 235-239

extralabel use of drugs, 1215-1220

Virus infection

enzootic pneumonia, calves,

clinical/morphologic features, 248-260

reproductive diseases, swine, 63-70, 529-538, 669-679

serologic diagnosis, swine reproductive diseases, 979-985
